Közép-magyarországi Agrárszakképzési Centrum

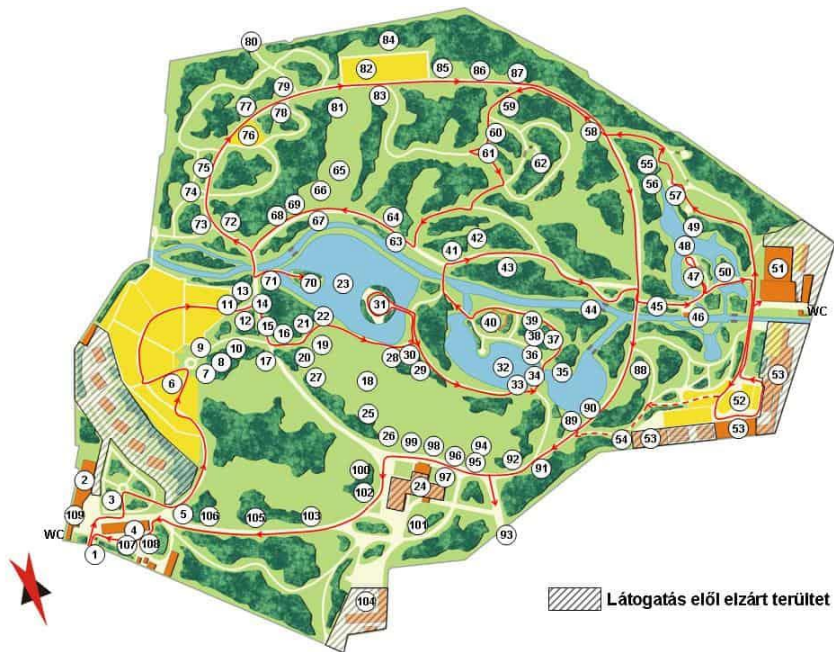

National botanic garden

- The garden covers an area of approximately 27 hectares, showcasing various landscapes and plant species. It houses around 4,000 plant species, including both domestic and tropical exotic plants. The garden serves not only as a recreational destination for visitors but also as an important venue for botanical research and education.

Visiting the Szuvandzsiev ornamental horticulture

Webpage: <https://www.facebook.com/Szuvandzsiev/>

Visiting a tree nursery

- The nursery is situated on an area of 17 ha, of which 5,5 ha are under container cultivation and 9 ha are free grow area. Shrub and evergreen propagation materials are grown in a heated greenhouse. Potting soil production, mulch processing and packaging are done in a 840m² plant equipped with modern equipments and machinery. In their collection we have over 300 varieties of conifers and 530 varieties of shrubs in various sizes from propagation material to several year old grown plants. We are also offering graft plants, seasonal perennials and deciduous trees as well.
